

# Savers Friend

## Who is behind Savers Friend?

Savers Friend is published by Moneyfacts.co.uk, the UK's leading provider of interest rate data. Moneyfacts.co.uk is completely independent and impartial. We are committed to providing you with the most up-to-the-minute accurate financial information on the whole of the market.

No provider ever pays to be in our tables, nor do we receive any payment to include a product in our editorial. Our income comes only from those providers who choose to pay us to link to their site so that users can apply direct to them. Wherever you see the 'apply' button or a product link this means we get paid if you make an enquiry or open that account.

## About Savers Friend

Launched in 2012, [Savers Friend](#) was created with the aim of helping savers find the savings account best suited to them. Rate is obviously important, but not all savers' wants and needs are the same. Some want to bank online, while others prefer to conduct their financial affairs face-to-face in branch; some want their savings to provide them with a regular income, while others are happy to put their funds somewhere safe and let the interest accrue.

With this in mind, the [Search](#) within Savers Friend has been designed to let you select the features and functions you want from your savings account and so find the best rate available to suit your needs. Enter how much money you will be putting away and Savers Friend will show only the accounts that meet your deposit requirements. The amount of interest each account will pay can be shown in pounds and pence, while it is also possible to compare side-by-side the finer details of up to three products at any one time.

As well as helping you find the savings account tailor-made to your circumstances, each week Savers Friend takes an in-depth look at the latest account launches and highlights some of the best accounts that are available. We will tell you who is currently offering the best five-year fixed rate bond on the one hand, or the market-leading online easy access ISA on the other.

At the same time, Savers Friend includes a number of features aimed at ensuring you make the correct savings choices. Our in-depth [Guides](#) will help less-experienced savers better understand the variety of accounts that are on offer, while more savvy savers could still advance their knowledge further and gain invaluable insight into aspects of the products they had not previously considered. If you still have questions unanswered, you can [Ask Rachel](#) your particular query, while our guides on [Depositor Protection](#) and [Who owns whom?](#) make sure you know where your bank or building society is licensed and the protection that your savings are afforded should they go bust. On the [Review](#) pages you can view the savings experiences others have enjoyed or perhaps endured with a particular bank or building society, and also share your own experiences.
